HARBORLINE FACILITIES & LOGISTICS, LLC

Capability Statement

Service-Disabled Veteran-Owned Small Business (fictional company)

SAMPLE

Reliable facilities support and supply chain execution for federal installations, delivered by a team that has worked inside the system.

Company Overview

Harborline provides facilities maintenance, logistics coordination, and inventory management to Department of Defense and civilian federal customers on the West Coast. Founded by a retired Navy Chief Petty Officer, we combine military discipline with small-business responsiveness. Our customers get one accountable point of contact, clear reporting, and work completed to the standard in the contract.

Core Competencies

- **Facilities maintenance and repair:** preventive maintenance programs, work-order management, and emergency response for administrative, industrial, and hangar facilities
- **Logistics and supply support:** receiving, warehousing, inventory control, and distribution coordination
- **Equipment and asset management:** tracking, inspection scheduling, and lifecycle records
- **Program and contract management:** onsite supervision, quality control, and monthly performance reporting

Differentiators

- **Leadership with military experience.** Our managers have led maintenance and supply teams in operational environments and understand mission-readiness requirements.
- **Quality control built into every task.** Each contract has a written quality plan, regular inspections, and documented corrective action.
- **Direct access to decision makers.** Customers work with the owner, not a call center.
- **Transparent reporting.** Monthly summaries show tasks completed, response times, and open items.

Past Performance

Customer	Scope	Result
Regional Naval support facility (SAMPLE)	Preventive maintenance for 12 buildings, 2 years	98% of scheduled tasks completed on time
Federal civilian warehouse (SAMPLE)	Inventory control and receiving, 18 months	Inventory record accuracy improved from 91% to 99%
Military base housing office (SAMPLE)	Work-order management and repairs, 1 year	Average response time reduced from 5 days to 2 days
